Technical Training

Technical development of our players is included in each field session. Players will be exposed to advanced techniques for ball mastery, shooting, dribbling, receiving, turning, heading, and more. Our coaches will take players through each step of the techniques to ensure proper development and execution.

Tactical Training

Tactical training is featured in our sessions when the players are grouped into teams. Our expert staff of coaches will help organize the players into an effective system of play and teach them their roles within that system. Topics covered include principles of attack and defense, switching fields, overlapping, and organizing the box. Teams will get to test what they've learned in the evening matches.

Goalkeeper Training

A specialized goalkeeper camp is part of the PRO SOCCER EXPERIENCE. Goalkeepers will receive separate instruction from the field players led by Victor Melendez, USSF "A" license goalkeeper coach. Proper technique for diving, boxing, parrying, and distribution is emphasized.

Staff

PRO SOCCER EXPERIENCE provides a tremendous opportunity for players to receive expert instruction. Our staff is comprised of elite level coaches who also have experience as professional soccer players. Staff coaches currently scheduled include:
